Renew was the lead Renown son and our selection as the phenotype standout of the 2019 SAV bull sale. He is as stout and wide-based as you can build one with tremendous muscle and performance. His dam is broody and powerful, having produced a high-selling sire in the 2017 SAV sale and a daughter retained in the SAV herd. Renew leaves a lasting impression on all who see him. He is the kind that can have a long-term positive impact on Angus cattle.
